

Up to 25% Off Your Next Scope

Get the oscilloscope bandwidth you need at an even lower price!

For a limited time, you can get up to 25% off your purchase of a new Keysight InfiniiVision oscilloscope. InfiniiVision scopes give you measurements you can count on. They are built around trusted technology that gives you the fastest waveform update rates and the ability to quickly capture random glitches. The intuitive user interfaces and high-end software applications put automated measurements and accessible expertise at your fingertips.

Bandwidth is often regarded as the single most important oscilloscope specification. Higher-bandwidth oscilloscopes help you see more signal detail and measure higher-frequency analog signals and faster digital applications. Splurge on more bandwidth and your oscilloscope discount increases, giving you the ability to do better testing faster.

Receive a 15% discount (for ≤ 200 MHz bandwidths) or 25% discount (for ≥ 350 MHz bandwidths) on the following InfiniiVision oscilloscopes:

- InfiniiVision 1000 X-Series (2-channel only)
- InfiniiVision 2000 X-Series
- InfiniiVision 3000 X-Series
- InfiniiVision 3000T X-Series
- InfiniiVision 4000 X-Series
- InfiniiVision 6000 X-Series
- P924xA Streamline Series
