

Yamato Scientific America (YSA) Statement,

On March 16, 2020, the County of Santa Clara issued an order directing all individuals living in the county to shelter at their place of residence effective March 17 to April 7 to slow the spread of COVID-19.

In compliance with this order, Yamato Scientific America (YSA) will temporarily close our office effective March 17, 2020. While our system will continue to receive incoming messages in the next 3 weeks and employees who can work from home will do so, we apologize for the delays on customer service requests and purchase order processing and shipping. We hope for your patience and understanding and thank you for your continued support.
